Washington Trust Bank

Payment Acceptance with Tap2Local™.

Need an easy way to accept payments wherever your business takes you? Accept card payments using tap to pay or send payment links and invoices right from the WTB Online app, all with no extra hardware. Register within WTB Online through a streamlined enrollment process for access to an integrated payments solution that supports your business.

Tap to pay.

Using the tap to pay capability native to compatible Android and Apple devices, initiate and accept tap to pay payments right within the WTB Online app.

Flexible payment options.

Additional payment options include QR codes for in-person payments when tap to pay is unavailable and unique payment links which can be sent via text or email. Allow recipients to designate their own payment amounts for donations or fundraising.

Next-day settlement.

Funds settle the next business day within a merchant wallet in WTB Online and are automatically transferred to your designated deposit account. Connect with your accounting software for easy reconciliation.

Payment invoices.

Create invoices for new or existing customers and send them via email directly from WTB Online. Duplicate past invoices for greater convenience and monitor payment status within the platform.

Product catalog.

Add products to a catalog for easy selection and payment totals. You can include images and fixed or optional pricing.

More.

- Review merchant statements.
- Issue full or partial refunds.
- Track and manage disputes.
- Customize alerts.
